SUMMARY

Senior Full Stack Engineer with 4+ years of experience designing and operating scalable backend systems, secure APIs, and cloud-native distributed architectures. Strong expertise in multi-tenant systems, system design, Kubernetes infrastructure, CI/CD automation, and high-availability platforms. Backend-first engineer with proven ownership of production systems and a strong systems and DevOps mindset.

EXPERIENCE

AITC International — Full Stack Engineer (Feb 2022 – Present)

- Designed and implemented secure multi-tenant authorization using CASL and ABAC, ensuring strict tenant isolation.
- Integrated third-party services and implemented observability using Sentry, improving reliability.
- Led migration from Next.js to Remix, reducing server load and contributing to a 15% increase in user traffic.
- Led development of cross-platform Flutter applications using Clean Architecture, Bloc, WebSockets, and real-time notifications.
- Designed and managed GCP infrastructure using Terraform and Kubernetes with automated CI/CD pipelines.
- Acted as technical lead across monolithic and microservice architectures using Kafka.

AITC International — Backend Developer (Jan 2022 – Feb 2022)

- Configured PostgreSQL replication for high availability.
- Implemented search and autocomplete using Lucene and edge-gram indexing.
- Developed microservices using RabbitMQ for inter-service communication.
- Implemented vector similarity search using pgvector.

PROJECTS

Chorus Extractor — ML-based system to extract key song segments using audio spectrum analysis.
Figma Plugin — Improved designer and viewer workflows within Figma.
prisma-fns — Open-source extension layer for Prisma ORM.
MyResume — Dynamic resume builder deployed on Fly.io using Docker.
Temp Mail & Forwarder — SMTP-based disposable email system built with Go, Hono, and Remix.
prisma-type-generator — Type-safe Prisma code generator for TypeScript.
vite-mcp — Server capabilities for Vite enabling MCP browser interaction.

TECHNICAL SKILLS

Backend & Systems: TypeScript, Node/Bun, Go, PostgreSQL, Redis, Kafka, RabbitMQ, Distributed Systems
Infrastructure & DevOps: Docker, Kubernetes, Terraform, CI/CD, Linux, Observability

Frontend: React, Remix, Next.js, Tailwind CSS

Mobile: Flutter (Clean Architecture, Bloc)

Cloud: GCP, AWS, Hetzner, Coolify

Languages: Typescript, Python, Rust, Go

EDUCATION

Swastik College, Nepal — (Jul 2024 – Dec 2027, Expected)

Bachelor of Computer Science and Information Technology

Premier Secondary College — High School (Science, Completed)

LANGUAGES

Nepali (Native), English (Professional Working Proficiency)

CERTIFICATIONS

Data Structures & Algorithms — Frontend Masters

Duolingo English Proficiency Test — Score: 135

Generative AI: Introduction to LLMs & Agent Programming — LinkedIn Learning

VOLUNTEER EXPERIENCE

Content Creator (Tech) | 2025 – Present

Educational content on backend systems and software engineering.
